This chemistry video tutorial shows you how to identify the limiting reagent. Chemistry doesn't always work perfectly, silly. Molecules are left over when one thing runs out! Also we never get all of the product. ... Just because these reactants are limited doesn't mean your understanding will be! 9.3 uses the tools of stoichiometry to teach the calculation of limiting reagent. This video shows you how to calculate the theoretical yield and percent yield. Once we get the hang of stoichiometric calculations, we get a curve ball. Convert all amounts to Moles * Divide all moles by the COEFFICIENT
